

Heatmap visualization of the 1000 most common words in the Brown Corpus. The x-axis represents word frequency (2900 to 3500) and the y-axis represents word count (1 to 1000). The color scale ranges from dark blue (low frequency) to dark red (high frequency). The top row shows the highest frequency words, with values ranging from 2900 to 3500. The bottom row shows the lowest frequency words, with values ranging from 2900 to 3500.
